

WHAT ARE THE EXPERTS SAYING ABOUT ALKALINE AND IONIZED WATER?

College of Metabolic Medicine and author of "Cancer Cure"

Dr William Kelly

"Alkaline water produced by a water ionizer has become the most important advancement in health care since Sir Alexander Fleming's discovery of penicillin".

Researcher

Dr. Robert O. Young, PhD

Dr. Robert O. Young, PhD In his book, The pH Miracle says it this way: "Those willing to look again, and with clear eyes, will be rewarded with the secrets to permanent health. We can heal ourselves by changing the environment inside our bodies. Potentially harmful invaders, then, will have nowhere to grow and will become harmless."

"The ph level of our internal fluids affects every cell in our bodies. ♦Extended acid imbalances of any kind are not well tolerated.... Indeed, the entire metabolic process depends on a balanced internal alkaline environment. ♦A chronically over-acidic pH corrodes body tissue, slowly eating into the 60,000 miles of veins and arteries like acid eating into marble. ♦If left unchecked, it will interrupt all cellular activities and functions, from the beating of your heart to the neural firing of your brain. ♦In summary, over-acidification interferes with life itself leading to all sickness and disease!"

"Sickness and disease, including the symptoms of cancer, tumors, AIDS, diabetes, MS, lupus, HIV/AIDS, depression, hyperthyroidism, Wilson's Syndrome, fibromyalgia, pain in every joint and muscle, chronic fatigue syndrome, muscle cramps, allergies (food), asthma, bronchitis, frequent colds, candida, hypoglycemia, allergic reaction to any chemical, fatigued all the time, food cravings, indigestion, inflamed joints, insomnia, mood swings, gas, bloating, diverticulitis, irritable bowel, pneumonia, ulcers, stomach and bowel cramps and even memory loss is the culmination of years of abuse of nutrition and acid build-up. ♦The most powerful program to reduce or eliminate these effects is to remove acid from the blood and tissues with an alkaline lifestyle and wise dietary and water consumption choices."

"If someone were to ask me, What is the one thing I can do to have better health? The answer would be very simple, "Start drinking alkalized and ionized water!"

Author

Dr. David S Dyer

"Restructured alkaline water may well be the best element or supplement you can put in your body! Did you know the Japanese have researched this subject for over forty years and have found that drinking restructured alkaline water can relieve or reduce the three main causes for sickness,

disease and pre-mature aging? ♦

Restructured alkaline water made using electrolysis has been consumed by the Japanese for over 40 years and has touched and changed every disease and condition imaginable. I have been using this water for over 6 years and have seen similar results when it is used persistently and consistently. The water is smooth, delicious, hydrating, energizing, permeating, pH balancing and a strong antioxidant. Does this sound like the water you should be drinking? I wish you all good health..."

Author, "Detox or Die"

Dr Sherry Rogers

Dr. Sherry Rogers is a medical doctor in private practice for over a quarter of a century. Her specialty is finding the cause of illness and getting rid of symptoms that are undiagnosable. Sherry's written books, scientific papers, and taught advanced courses to physicians learning these techniques. She's lectured in 6 countries and over 50 US. cities, she has been interviewed on dozens of television shows, and radio programs as well as having written numerous magazine articles. "No longer is a headache a Darvon deficiency. We now have the tools with which any symptom can be turned around, including many cancers, chemical sensitivity, allergies, and much more.

"Alkaline water rids the body of acid waste... After carefully evaluating the results of my advice to hundreds of individuals, I'm convinced that toxicity in the form of acidic waste is the primary cause of degenerative disease."

Lifestyle Coach and author of "Awaken The Giant Within"

Tony Robbins

"Alkalize your body and live a healthier, more energized, and ultimately more fulfilling life. Our acid-alkaline balance is a baseline determinant of our physical health. When you break your old eating patterns, you will find yourself getting back to the real you, filled with the vitality and energy that you desire and deserve."

Author, Inventor, Movie Producer, PhD, Scientist, & Technologist

Ray Kurzweil

Dr. Kurzweil talks about alkaline and ionized water. There are more benefits to "alkaline water" than simply the alkalinity or pH. The most important feature of alkaline water produced by a water alkalizer is its oxidation reduction potential (ORP). Water with a high negative ORP is of particular value in its ability to ***neutralize oxygen free radicals***. ORP can also be directly tested using an ORP sensor and meter. We have conducted these experiments as well. We found that water coming directly from the tap had an ORP of +290mV, while the water coming out of the water alkalizer had a negative ORP. The more negative the ORP of a substance (that is, the higher its negative ORP), the more likely it is to engage in chemical reactions that donate electrons. These electrons are immediately available to engage in reactions that neutralize positively charged free radicals. This is the key benefit of water produced by

a water alkalizer that is not available by simply drinking water than has had some bicarb or other compounds dissolved in it to make it alkaline. Ionized Water has been written about and highly recommended in several top health books by independent, eminent authors that drink it. These include: Dr Ray Kurzweil and Dr Terry Grossman, who in their groundbreaking book "Fantastic Voyage: Live Long Enough to Live Forever" state that:

"Consuming the right type of water is vital to detoxifying the body's acidic waste products and is one of the most powerful health treatments available."

"We recommended that you drink 8-10 glasses per day of this alkaline water. It is one of the simplest and most powerful things that you can do to combat a wide range of disease processes. It is interesting to note that in Japan , professional sports teams drink alkaline water to improve their performance"

Author, The Acid Alkaline balance Diet, Adjunct Professor, City College, New York

Felicia Drury Climent

"After years of very positive continuous clinical experiment that I am conducting with hundreds of clients using electronically restructured alkaline water, it is my opinion that this technology will change the way in which all health providers and the public will approach their health in the coming years. ...My suggestion is to drink restructured alkaline water whenever possible."

Author, Alkalize or Die

Dr Theodore Baroody DC, ND, Ph.D., Dipl. Acu.

"It is my opinion that ionized water will change the way in which all health practitioners and the public approach their health in the coming years. I have administered over 5000 gallons of this water for about every health situation imaginable. I feel that restructured alkaline water can benefit everyone. "The countless names attached to illness do not really mater. What does matter is that they all come from the same root cause: too much tissue acid waste in the body."

Dr. Baroody's book is a popular and easy to follow book that is worth reading.

Director of the Water Institute, Tokyo

Dr Hidemitsu Hayashi

"Bad diets such as meat and potatoes, fried ♦ foods, soft drink colas, and sugars build up ♦ acid salts in the body. Often these deposits, ♦ by having to be stored away from the blood flow, ♦ can remain in the body for decades. He recommends the consumption of ionized alkaline water, which will slowly and gently wash these salts away."

Author, Reverse Aging

Sang Whang

"Here is the simple process of aging. Every living cell within our body creates waste products. The nutrients from our food are delivered to each cell and they burn with oxygen to provide energy for us to live. The burned nutrients are the waste products. The food that is either good or bad for you is determined by the amount and quality of the wastes produced: toxic, acid, alkaline, etc. Most of our cells go through metabolism and old dead cells become waste products."

"These waste products must be discharged from our body. In fact, our body tries its best to dispose of them through urine and perspiration. Virtually all waste products are acidic; that is why urine is acidic and the skin surface is also acidic. The problem is that, due to several reasons, our body cannot get rid of 100% of the waste products it produces." "The main reason for this is our lifestyle. We, therefore, spend more time producing waste products than processing them."

University lecturer and author of The Chemistry Of Success

Dr. Susan Lark, M.D.

"Peak performance and optimal health depend on the body's ability to maintain a slightly alkaline state in virtually all of our cells and tissues... Drinking four to six glasses of alkaline water a day will help to neutralize over acidity and over time will help to restore your buffering ability. Alkaline water should be used when conditions of over acidity develop, such as cold, flu or bronchitis. Like vitamins C, E and Beta Carotene, alkaline water acts as an antioxidant because of its excess supply of free electrons. This can help the body against the development of heart disease, strokes, immune dysfunctions, and other common ailments."

Noted author, health and diet expert

Dr. Robert Atkins

"The cells and fluids in most people's bodies...are overly acidic. This can cause a lot of health problems. It prevents your body from neutralizing and disposing of harmful, poisonous toxins and leaves you more susceptible to the cell-damaging free radical oxidation that leads to cancer and other diseases."

Anti-aging expert and author of 'Grow Youthful'

David Niven Miller

"Increasing your consumption of good quality tap water or filtered water can transform your health and play a central role in the healing of virtually all degenerative diseases. However, alkaline water has profound long-term effects because it alkalizes your body and provides an

effective antioxidant."

Researcher and Author of 'The Hidden Truth of Cancer'

Dr. Keiichi Morishita

"If the blood develops a more acidic condition, then these excess acidic wastes have to be deposited somewhere in the body. If this unhealthy process continues year after year, these areas steadily increase in acidity and their cells begin to die. Other cells in the affected area may survive by becoming abnormal, these are called malignant. Malignant cells cannot respond to brain commands. They undergo a cellular division that is out of control. **This is the beginning of cancer.**"

"Modern medicine.. treats these malignant cells as if they were bacteria and viruses, it uses chemotherapy, radiation and surgery to treat cancer. Yet none of these treatments will help very much if the environment of the body continues to remain acidic."

Ed McCabe, who has done so much to promote oxygen therapies, says:

"Deprive a cell 60% of its oxygen and it will turn cancerous."

Author of 'Youthing'

Harald Tietze

"By drinking alkaline water, the aging process can be reversed and the wastes can be reduced in the long-term to a level of a much younger person. The functions of the organs can be revived."
